programmes in the areas of engineering, arts & science, computer, management studies and medical sciences. Under the engineering graduate programme, it provides ECE/CSE/Mech/EEE/Civil/BTech (IT), electronics and instrumentation with regular/lateral/part-time options. Under the stream of science, it offers BSc (computer science/physical education). The university offers BEd under the category

istry) and doctoral programmes in selected disciplines.

The university extends placement to students through individual departments and the exclusive placement cell. The university offers placement, skill development, soft skills and interpersonal development training to all students throughout the year. These training programmes are offered by internal faculty, eminent industrialists, soft skill trainers, placement consultancies and experts from various fields.

IMAGESAAR

Sri Chandrasekharendra Saraswathi Viswa Mahavidyalaya (SCSVMV University) was established in 1993 under the aegis of Sri Kanchi Kamakoti Peetam Charitable Trust, which is located in a sprawling complex of 50 acres with all the necessary facilities at Enathur village, four kilometres from Kanchipuram town. The university has a unique focus on integrating traditional wisdom with modern scientific knowledge, practices and a global outlook.

The university offers graduate, postgraduate and research

of education. BAMS is being offered under the category of medical sciences. Master of Engineering (ME) in power system/power electronics and drives/computer integrated manufacturing/thermal engineering/computer science and engineering - both in regular/part-time are being offered. It also offers MBA, MCA (regular), MSc (chemistry), and MA (Sanskrit). Under the research programme category, it offers MPhil (management studies, Sanskrit, computer science, mathematics, physics, chem-

→ **I**N order to encourage co-curricular and extra-curricular activities and explore the hidden talent of students, a youth festival programme (Tarunyam) is conducted annually. Students participate in various inter-university national and international youth festivals and competitions and bring rewards and laurels to the university. To encourage the sporting skills of students, the university organises a university-level sports festival every year. Every department of this university consistently organises international and national-level seminars and conferences by bringing experts from renowned academic institutions and illustrious companies. The purpose of organising these programmes is to enrich the knowledge of students and faculty in their specialised fields. The university also motivates faculty members and students to publish research papers in renowned national and international journals and magazines and the same is being rewarded through monetary benefits.
