EDITORIAL DESK

Sri Jayendra Saraswathi Ayurveda College & Hospital takes pride in launching a special issue of Ayursurabhi on skin diseases. This issue of Ayursurabhi will be used as a platform to communicate to all our doctors and other Ayurveda colleges the happenings and development in *Sri Jayendra Saraswathi Ayurveda College & Hospital*.

Skin is the largest organ of body covers a surface area of between 1.5 – 2 square meters (16.14 - 21.52 sq.ft) the average square inch of skin holds 650 sweat glands , 20 blood vessels , 60000 melanocytes and more than 1000 nerve endings , skin manifest large number of internal diseases in the form of itching, maculo popular rash, purities, depigmentation.

We thank you for the overwhelming response shown towards the newsletter and we are happy that several readers and doctors from other states have called us to appreciate our effort in launching Ayursurabhi. We can expect our "Ayursurabhi" bi-monthly magazine to come out with more informative topics in the forth-coming issues. Resent development and day today developments about the diseases and its treatment in the Medical field across the world will be given priority. We would also share our experience of several generations in the treatment of chronic and complicated diseases.

Ayursurabhi is still young and expecting valuable feedback from you, now on words we are planning to focus on one subject in every issue and this issue will be on skin on this special issue of skin diseases and its management, we hearty welcome to all the readers of Ayursurabhi. We are very much thank full to all our readers for their active participation and constructive criticism for May – June issue.

We need your proactive participation and constructive criticism by that we can bring more information in this bi-monthly magazine. If you think magazine Ayursurabhi is helpful to propagate Ayurveda to some extent please feel free to contact us for a free copy.
