

**Curriculum B.E Mechanical + 3D Printing**

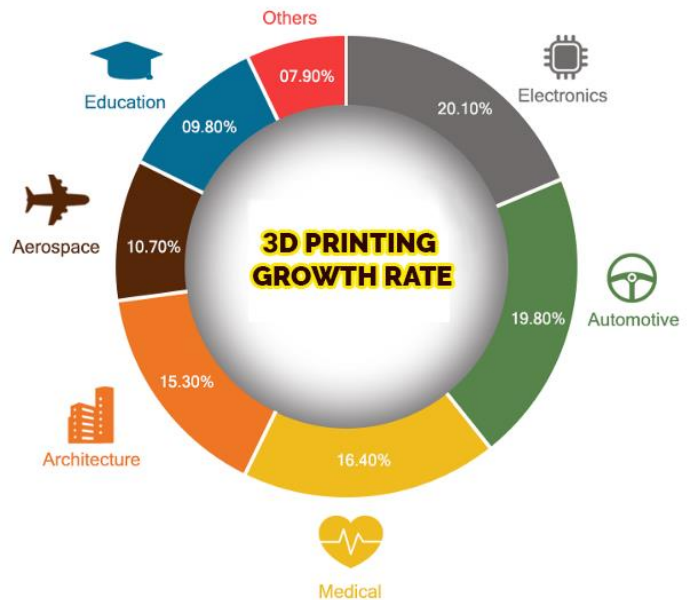

**Professional Specialised Courses (PSC)**

- Polymer Engineering
- 3D Printing Processes & Applications
- Materials & Characterisation Techniques
- 3D Printing Machines & Systems
- Medical Applications in 3D Printing
- Rapid Tooling & Industrial Applications
- Rapid Prototyping Lab

**Open Electives Courses (OEC)**

- Cloud Computing
- Web Design
- Digital Image Processing
- Data Analysis
- Astro-Physics
- Business Administration
- Chemistry in Crime Investigation
- Bioinformatics
- Finance for Non Finance Managers
- Fuel Cell and Batteries
- Autotronics
- Artificial Intelligence & Machine Learning
- Nano Technology & Surface Engineering
- Disaster Management & Mitigation
- Robotics
- HR Management
- Nuclear and particle physics
- Internet of Things (IOT)
- Psychology
- Statistical methods with excel
- Key Board
- Logistics and Supply Chain
- Violin
- Vocal Music

**3D PRINTING MARKET**

Global 3D Printing Market Size, 2018-2026 (USD Billion)

**\$8.58 Billion** 2018 & **\$51.77 Billion** 2026

Global 3D Printing Market Share, By Application, 2018

**Proof of Concept 14.3%**  
Prototyping | Production | Others

North America 3D Printing Market Size, 2018
