Tasks for April 2020

Please find below [interesting tasks suggested for April 2020](#). You can perform any one or more tasks from below and you can perform any new initiatives post the approval from HR POC.

- **Intercollege Coding Contest** – We have scheduled online coding test for all student club members. The students can take the test any time between 2nd April to 8th April from your place. Test Link : <http://hr.gs/studentclubtest> (Webcam is mandatory and recommended to use Laptop)
- **Use Case Design Contest**– Divide members into groups, you can choose a problem statement / app / portal and design a use case / activity / component diagram. Then present it to your college student club members. Please share the use cases in a PPT along with monthly report.
- **Leveraging Online Tools**– Divide the members into groups and ask them to come up with solutions for leveraging online tools for Education, Essential service, IT and other industries. Please share the ideas in a PPT with us along with monthly report.
- **IEEE Paper** – Choose any IEEE Paper and come up with a proposed solution or implementation for the same as mini project or presentation.
- **Task of your choice** – Choose any technical task of your choice and conduct it for your department students

Apart from the above tasks, any new initiatives will be appreciated. Please keep the HR POC Informed on any tasks and its progress. Feel free to reach HR POC for any queries
