D.O.No.F.16-28/2009-DL

Dear Sir / Madam,

Kindly refer to my letter No. 16-3/2009-DL, dated 21st August, 2009 [copy enclosed] regarding Optical Fibre Cable (OFC) based 1 Gbps connectivity to National Knowledge Network (NKN) Point of Presence (PoP) to all the bonafide Universities in the country under the National Mission on Education through ICT (NME-ICT) on a 75 : 25 cost sharing basis between the Central Govt. and the Universities concerned, which includes university level institutions. You would be glad to know that BSNL - MTNL combine has started the work in this regard. This is in addition to the already ongoing work of progressively providing 10 Mbps Broadband over Virtual Private Network (BBoVPN) to all the bonafide Colleges of the country through upto 20 individual connections over copper wire with ADSL modems on 75 : 25 cost sharing basis between the Central Govt and the respective Colleges. You are also aware that 25 % contribution of the University and the College has to be paid by them to the BSNL directly. As indicated earlier, the approximate one time upfront payment for each University works out to Rs. 50 lac plus service tax for the connectivity for a 10 year period and Rs. 10 lac plus service tax for setting up a Local Area Network (LAN) of 400 nodes, if required by the University. In case of Colleges, approximate quarterly payment works out to Rs. 6500/- only. BSNL, on its part has agreed to provide 10% rebate on cost of connectivity.

2. As the connectivity is the key to delivery of e-contents and collaboration between institutions / academicians / experts / researchers, in order to fast track the roll out of connectivity to Universities and Colleges, I would request you kindly to expeditiously take the following steps:

(a) obtain required approvals for meeting the upfront payments to BSNL for the 1 Gbps link to NKN and for the LAN and to made adequate budget provision for the same,

(b) nominate a nodal officer whom BSNL / MTNL could contact for these works, and who, in turn, could co-ordinate these activities in the University on your behalf,

(c) identify a 10' x 10' room where the 1 Gbps connectivity could be provided and routers / switches for NKN connectivity and LAN could be placed,
