Plan of Action 1. Year Plan was	OUTCOMES: 1.The execution of the

developed and approved in the first meeting of the IQAC held on 18122017. 2. To conduct at least four meetings with all the members of IQAC. 3. to conduct Faculty Satisfaction Survey(FSS) 4. To scrutiny the API formats for further fine tuning and finalization of the scores. 5. Academic Audit was conducted. 6. To evaluate Department performance in a 360 degree scale. 7. Student feedback forms and the format for analysis were sent to all the departments. This year online feedback was collected from most of the engineering departments. 8. Preparation of profiles of all the departments. 9. Preparation of research compendium. 10. Conduct of quality awareness programmes. 11. Encouragement to the meritorious faculty, departments and students through distribution of awards, prizes, scholarships etc. 12. Continue the best practices in vogue to maintain quality. 13. Maintenance of files in all the departments and sections.

activities became easier and we were able to complete most of the activities due to meticulous planning. 2. In this academic year we could conduct 4 meetings with the members of IQAC. 3. We have completed the Faculty Satisfaction Survey by taking a sample of 193 members of faculty. Overall satisfaction with respect to all the 31 items together is 70. It is evident that the members of faculty of our university are satisfied with the activities of the university. 4. All the members of faculty were individually called and shown the scores achieved by them. This made them to realize what is expected from them and it gave an idea to the management about the performance of each member of faculty as well as the nonteaching staff of the university. This also gave a vast scope for the faculty members to improve their quality of teaching in the coming years. 5. Dean as Chairman of each faculty conducted the academic audit of each department and graded each member of faculty on five point scale. It has developed accountability on the part of the teachers and the management got a clear idea about the performance of each faculty of the university. The revised academic audit format gave much scope for quantification of the academic performance of the members of faculty. This time an external member also included in the ACADEMIC AUDIT TEAM. 6. A new Innovation called Departmental Cumulative Academic Performance Index (DCAPI) was introduced and all the departments were asked to provide the data and comparison of scores were recorded. 7. All the departments collected feedback from the students and analysed the responses and prepared a detailed report. It was shown to the faculty members individually to know about his/her own strengths and weaknesses. The HOD gave the suggestions for overcoming the deficiencies, if any. It helped them to improve their quality of teaching in the class room. In order to reduce the green house effect, the paper usage, online feedback was collected by some of the departments and it would be extended to other departments too. 8. All the departments prepared

Departmental profiles consisting of all the academic activities of the department during the academic year 201718. 9. All the departments have prepared a compendium consisting of all the papers published by the members of faculty during the calendar/academic years 201213, to 201718. 10. All the departments were asked to conduct quality related programmes at least one programme in a year. Most of the departments conducted the quality related events. 11. 16 teachers were given best teacher award with cash prize, merit cum means scholarships was given to more than 300 students, and two departments were given best department awards. (Department of English Dept. Of Physics) 12. A number of innovative and best practices were initiated during the yester years were continued along with the new additions. 13. ### 1.4 – Feedback System

#### 1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	Yes

#### 1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained
<p>IQAC developed feedback forms to collect the above (1.4.1) areas information. The raw data was analyzed by using various parameters prescribed by IQAC. The feedback results are distributed to the members of faculty by adding suggestions to improve their quality of service in specific to department and in general to university. Based on the feedback obtained from the stakeholders, changes in curriculum was made and placed before the concerned Board of studies. Needs and aspirations of the stakeholders were taken into consideration.</p>

### 2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

The Department of Management Studies conduct mentoring program to help the students to enrich their varied capabilities and develop interpersonal relationship between the teachers and students. Each teacher in the departments is assigned with the task of mentoring 25 students. The teachers conduct mentoring activities at two levels namely group and personal. All teachers conduct at least three group level interviews of his/her group every year. The personal level interviews with the students are also conducted periodically. All mentors keep a confidential data sheet about their students, “mentors assessment of students” which records a report of mentoring done by the teachers. These reports are periodically evaluated by a Dean of Management Studies, Head of the Department, senior faculty and concern teacher in charge. Teacher Guardian Scheme is implemented in the Department for post graduate and under graduate students wherein 6 to 8 students are assigned to a faculty member who acts as their mentor for the entire programme duration. Mentor regularly interacts with the students and monitors their academic performance and attendance. Students are counselled by the mentors, class advisors, subject faculties and HOD for improving their academic performance and attendance. Mentors counsel the students regarding their performance and schedule additional lectures/practical's. At first year level, students academic and personal issues of concern are well looked after by the class advisor/mentors. This way the students realize their responsibilities at the early stage itself. The students are given guidance for career, personal, besides academic issues. A special arrangement also, is made available to the students to deal with psychological issues arising in cases like single parenting, bread earner in the family etc. The meetings of mentor ship are conducted regularly and on requirement, in which students meet their mentors for academic and personal issues. The students who have less attendance and who have missed their internal tests are paid special attention from mentors' side. Even the students with many issues are asked to call parents for parents mentor meetings. The mentor is also responsible to provide counselling to the student and provide guidance regarding personal and academic issues. The mentor keeps track on their improvements and counsels them accordingly. The role of the mentor is to nurture the students and guide them for any issues they are coming across. A large number of students who perceive the professional course are quite focused still they may fall short of score to be promoted to above sections. Such students are given counselling by the mentors and the subject teachers and remedial lectures are conducted. Students are supported and guided both in cocurricular and extracurricular activities . The mentor of the class discusses with each and every student individually and supports them in all the possible ways to enrich their academic performance. The mentors always keeps a check on the attendance of the student, the marks/grades obtained in the internals externals examinations, and regarding his/her candidature in the campus placement and provides remedial coaching

5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

Students are involved in some committees related to both academic and administrative. Students are members in preBOS committees. There is student representation in IQAC, antiragging committee, mess committee etc. Departmental symposium is being organized exclusively by the students.

#### 5.4 – Alumni Engagement

5.4.1 – Whether the institution has registered Alumni Association?

No

5.4.2 – No. of registered Alumni:

1300

5.4.3 – Alumni contribution during the year (in Rupees) :

57000

5.4.4 – Meetings/activities organized by Alumni Association :

3 meetings were conducted at Department level.

### CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

#### 6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

Decentralization and participative management is very conspicuous in the SCSVMV. 1. Establishment of council of Deans: The management of SCSVMV established a council of Deans where one of the senior Deans act as the convener and conduct the meeting. Deans council meets periodically and discusses various academic and sometimes administrative issues and the recorded minutes will be sent to the honorable vicechancellor for further action. The Deans, collectively in the form of a council, advise the ViceChancellor on all matters relating to academics including research, planning, quality control and maintenance of discipline. The ViceChancellor is able to finalize and take decisions on all matters of importance by consulting the Deans in the frequent meetings of Deans Council, conducted as and when required and chaired by the ViceChancellor. 2. Composition of the Council of Deans: S.No Name of the Member Designation and Address Position 1 Prof. Dr. K.P.V.Ramana Kumar Dean, FMS Member 2 Prof. Dr. K.V.S.N.Murty Dean, Faculty of Education Convener 3 Prof.Dr. G.Sriram, Dean, Faculty of Engineering Member 4 Prof. Dr. R.K. Pisipati Dean, Faculty of Sanskrit IC Member 5 Prof. Dr. S.Balaji Dean, Faculty of Science Member 2. Formation of various committees: B A number of committees and councils are established tin the university where there is participation of a number of professors, such as academic Council, Planning and Monitoring Board, Antiragging committee, Board of Studies, IQAC etc. in some committees students,

parents, alumni etc. are also made members. Ex. Board of Studies, Parentteacher meetings, IQAC etc.

6.1.2 – Does the institution have a Management Information System (MIS)?

Yes

## 6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Curriculum Development	<p>The curriculum design and updation is routinely carried out according to the requirement of students and industries. Every academic department design and redesign the curriculum, syllabi monitoring through academic, industrial experts and alumni. While designing and redesigning the curriculum due importance is given for availability of source materials, coverage, and ability of students to understand the theoretical backgrounds, construction of questions and viability of applications. The designed and redesigned curricula are forwarded to the concerned Dean of Academics, Academic Council and Board of Management for approval. The feedback taken from the stakeholders viz., students, alumni, exit questionnaires, parents, industry personnel, visiting faculty etc. is being incorporated. CBCS is initiated and utmost priority is being given to value based education coupled with greater scope for employability. The new curriculum proposed by the AICTE was implemented in all the branches of Engineering.</p>
Teaching and Learning	<p>During the academic year 201819 the academic schedule and teaching plans were prepared in advance and executed meticulously as per the schedule. 1. The methodology followed by the faculty is a sandwich of both modern and traditional on the foundations of ethics and morality. 2. Interactive pedagogy was adopted by using participatory learning, case study based learning, projects, field works, seminars, assignments, internships etc. The advanced learners are encouraged to take partnership in research projects with the faculty members. The students are provided with interactions beyond the college timings with their respective mentors and guides. 3. All the departments encourage the students</p>

to undertake minor and major real time projects on their field of interest. In addition to that it has become a mandatory process for students to undertake group based and individual projects. The students are attached with the mentor for discussion to undertake real time projects. The outcomes of projects are evaluated through the panel of experts in the concerned departments. 4. The needs of the slow learners and advanced learners are taken care of. 5. Academic schedule is strictly adhered to. 6. Monotony of the teaching and learning is broken by organizing guest lectures by experts in the respective fields of industry. 7. ICT is integrated with teaching by all the members of faculty in all the departments in the university. 8. Mentor and mentee rapport is well established and the interaction between the mentor and mentee is very often takes place. 9. NPTEL/MIT video classes for advanced topics are being used for teaching. 10. Videography of the lessons was done and suggestions were given to individual faculty members regarding their strengths and limitations. 11. Innovation was given due importance in the curriculum. 12. Outcome based curriculum is encouraged.

Examination and Evaluation

1. Students are consistently monitored through class tests, review tests, internal assessment tests and end semester tests. During the time of every assessment test, the questions are covered in every aspect of their syllabus by giving a normal distribution of choices. The assessment pattern also cover the aspects of proficiency, learning interest, involvement in classes, participation in class exercises, percentage of prescribed attendance, application, skill and behaviour patterns. The componentbased evaluation pattern help the students to enrich their contribution on every subject. 2. Student performance is evaluated through Continuous Assessment by conducting internal tests, assignments, seminars, objective type tests, case studies and quiz for 40 marks in addition to the end semester evaluation for 60 marks. Weaker students who score low marks are given privilege of writing retests to improve their

performance. The system of letter grading is adopted and statements of marks are printed accordingly. 3. Open Book system was introduced for some courses in engineering stream. Invigilationfree examinations are being conducted for all internal tests in the School of Education. 4. Apart from the above, double valuation for all PG courses, revaluation of papers, if demanded, by the student, publication of result within the stipulated dates and online publication of results are in vogue in the university. 5. Marks sheet is prepared with six security features with photograph. 6. Results are published within 20 days from the last date of examination. 7. Examination section is transforming into technology based system.

**Research and Development**

A separate centre by name SRI JAYENDRA SARASWATHI CENTRE FOR APPLIED RESEARCH was established and so far 3 proposals sent to the funding agencies were approved. Another center Advanced center for Materials manufacturing was established and started functioning. 2. The university encourages researchers to carry out their research in the field of engineering, Sanskrit and Indian Culture, Management, Education, Health Science and languages. The university adopts the changes that are made by the UGC and AICTE time and again. 3. Interdisciplinary research is encouraged. So far 12Ph.Ds of inter disciplinary nature were produced. 4. All formalities prescribed by the UGC and AICTE are being strictly adhered to. 5. Plagiarism Check is being done at various levels before submission of thesis by the scholars. 6. The entire research process is continuously monitored and regulated by the Director (Research and Publications). 7. Minor projects with financial assistance up to 50,000 were sanctioned by the university to encourage faculty to do research.

**Library, ICT and Physical Infrastructure / Instrumentation**

The university possesses a central library with international standards well stacked with collection of books with recent updation. There are more than 1, 80,000 books in the library. It also encourages the students to use on line learning resources both at central library and department library. Every

academic department has equipped laboratories which includes research equipment. Periodic updating of instruments is being done to provide the theoretical understanding to students. There is a browsing centre with internal facility available in the library. The library building is an infrastructure marvel. 100 feet monolithic statue of Jagatguru Sri Adi Sankaracharya in front of the library building is a unique feature of this university. The university is having adequate well equipped classrooms, laboratories, seminar halls etc. Various amenities such as medical centre, post office, hostels, staff quarters, play grounds, common halls, fitness centres, canteen, banks etc., are available inside the campus. Equipment such as UV, florescence and CV worth of 60 lakhs is available for characterization,

Industry Interaction / Collaboration

In the previous academic year an industryacademia meet (3rd meet) was organized in the university and representatives from 38 companies participated. The SCSVMV is having interaction and collaborations with reputed organizations, institutes and industries in India. The university also providing consultancy services to the local municipal administration. The departments are constantly organizing industrial visits to students to renowned organizations. The package of industrial visit covers minimum of two organizations engaged in manufacturing, processing and service. The prior schedules are prepared by the Departments and got due approval from the Deans of faculty and the Vice Chancellor. Every year the location of visit and organizations are decided based on the requirements of students according to their academic backgrounds. During the time of industrial visits, the university encourages students to interact with top officials of visiting organizations that helps them in gaining experience by knowledge sharing. At the end of every visit, the students are instructed to provide a detailed report about the learning aspects on the visits. The IndustryUniversity partnership is useful on reciprocal basis. The industry personnel are being

invited as guest lecturers and involved in BOS meetings for curriculum development. The feedback given by them on various aspects of the academics was well received by the University.

**Admission of Students**

Admission is done on all India bases. Every year students from 10 to 15 states join the university. The university has a well organized and transparent system. All India basis advertisement will be given for admissions. Admissions to various courses are based purely on merit by normalizing the marks obtained in the qualifying examination and marks obtained in the entrance examination conducted by the University. The admission is finalized by the committee headed by the Chairman of Admissions. Preference is given to JEE rank students. No Capitation fee in any form is collected. The rule of reservation is also being followed. The University has an inclusive admission policy. The entire admission process is computerized. Online applications are being received and also online entrance test conducted. Meritorious students were offered scholarships. Girl students are given priority in the admission process.

**6.2.2 – Implementation of e-governance in areas of operations:**

E-governance area	Details
Planning and Development	Special WhatsApp groups (Samskrutasamskrutee for Faculty members. Ekalavya for Students) have been started to discuss day to day affairs as well as academic improvement
Administration	Benefits of administration through e-governance : ? Student and Staff Data can access easily ? Helpful for NAAC and NBA accreditation ? Improve education system ? Empowerment of faculties, students encouragement of their participation
Finance and Accounts	Net banking is used to get sponsored amount.
Student Admission and Support	The admission notification is issued as advertisement in leading newspapers. ? The Information Brochure and webpage contain detailed information about the UG and PG courses, Intake of students, eligibility criteria, process of admission and the facilities provided by the institute. ? Admission

	information is delivered through advertisement in media. ? Admission into B.E programmes is through the Entrance Examination or desirable score in JEE/ ERA (UNIGauge) and admission to undergraduate programmes in the Faculties of Arts and Science are made on the basis of 2 performance and/or admission test conducted by the University.
Examination	The following components are used to evaluate for an examination outcome i. Online test evaluation ii. Class Assignments iii. Home Assignments iv. Class test v. Open book test vi. Seminars. vii. Mini projects. viii. Group discussions related to subjects. ix. Observation x. Model exam xi. Record work

#### 6.4 – Financial Management and Resource Mobilization

6.4.1 – Institution conducts internal and external financial audits regularly (with in 100 words each)

**Mechanism for external audit:** Care is taken to maintain clear and accurate audit trails for all the transactions. The university has the well established system of budgeting and closely monitoring the effective use of financial resources. Major income to the university is the collection of fees from the students. The fee structure is recommended by a team of professionals, taking into account the fee structure of similar institutions in and around the location of the university and the same is approved by the competent authority, after due deliberations and discussions. There are well structured purchase procedures for awarding contracts, which are duly followed. Major financial decisions are brought to the notice of the Finance Committee and the Board of Management and are being discussed in their periodical meetings. The SCSVMV University has a Finance Officer, who is a Chartered Accountant with vast industrial experience in the field of finance and accounts. He does the job of an internal auditor. External audits are conducted on a regular basis for the university's balance sheets, by a certified accounting firm. Accounts are audited regularly, and there have been no major objections to date. The finance section of the university takes care of the income and expenditure statement and prepares every year and gets it audited by the qualified auditor. The income and expenditure statement for the year 2014 is furnished below. All the details of the last four years are with the Finance section.

6.4.2 – Funds / Grants received from management, non-government bodies, individuals, philanthropies during the year(not covered in Criterion III)

Solar plant was erected on the administration building. 7. Green Cell was constituted and Green audit was conducted. 8. Conducting experiments in chemistry with low concentrate chemicals. ecofriendly activities: 1. Rain water harvesting. 2. Solar energy usage. 3. Restricted entry of motored vehicles inside the campus with most parking areas being made available at the gates. 4. Every semester, with the help of green Brigade /NSS volunteers' tree plantation is carried out in the campus. 5. Energy audit and green audit is being done every year. 6. Moving towards paperless correspondence.

## 7.2 – Best Practices

### 7.2.1 – Describe at least two institutional best practices

1. Invigilatorfree internal examinations 2. conduct of Academic audit. BEST PRACTICEII Title of the practice: ACADEMIC AUDIT Objectives of the practice: 1. To assess the academic performance of individual faculty in a department. 2. To

assess the academic performance of the department as a whole. 3. To identify the strengths and limitations of the department. 4. To make the individual faculty and the department accountable. Underlying Principles involved in this Practice: Academic audit is a best practice to be continued in any organization for better results. The main aim of conducting academic audit is to assess the academic performance of both individual faculty and the whole department. This practice develops accountability of the individual members with regards to their academic performance. By conducting academic audit, the strength and weakness of the department can be assessed. The quantification of the academic performance helps us to compare the academic performance of departments and members of faculty. The respective Dean for onward transmission to the Management will be well informed about the performance of each department in the University. This practice develops a healthy competition among the members of faculty of each department and also among the departments. The Content: The conceptualized features and challenges in implementing this practice are: 1. There is a need to develop a format in such a way to quantify this academic performance of the individual faculty as well as the whole department. 2. It consumes a lot of time to complete the whole process. 3. Academic audit is being conducted at the end of semester / year when teachers are busy in conducting practical exams. 4. Teachers feel a bit of difficulty since they do not prepare necessary records throughout the year but make preparations just before the academic audit dates. The Practice: 1. Academic audit committee is being constituted with three members headed by the Dean of the respective faculty supported by two Heads of department. 2. Once the committee is constituted, the date and time of the academic audit will be informed to the respective departments well in advance. 3. Each faculty is expected to get ready with the following documents and display them before the Academic Audit Committee. a. Teaching Record b. Publications c. Curriculum Details d. Student Details 4. The members of academic audit interact with each member of faculty with regards to subject matter various concepts of the courses taught and also go through all their records and credentials. The performance of each faculty is quantified. 5. At the end, the committee calculates the whole departments' academic performance. 6. A report is prepared with the significant contribution of the members of faculty as well as the department. 7. Hard copies of the reports duly signed are being sent to the IQAC. 8. IQAC after due verification sends the reports to the honorable ViceChancellor for perusal. 9. Based on the performance, each faculty is graded and the details will be sent to the Head of the Department. Evidence of Success: After conducting the academic audit regularly, we found a significant improvement of the individual faculty with regard to attending seminars, publishing papers, undertaking consultancy, organizing seminars / workshops, maintaining records etc.

### 7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

Our vision is to provide "quality higher education coupled with Indian Value system and at the same time make it affordable to all sections of the society irrespective of their social or economic standing". It is to identify innate talents of students and bring out their hidden potentialities and help in development of their allround personality with embedded values. We have been teaching Sanskrit and Indian Culture to all the programmes offered in the university and 2 credits are provided to these courses thereby making all the students to acquaint with one of the ancient languages of the country i.e

Sanskrit. Indian Culture is being taught to all the students so that they can identify themselves as the citizens of our great India. Morning Assembly is being conducted every day at 8.55AM. Our university prayer song is being played in the morning at 6.00AM in the campus. Apart from this, bhazans were conducted in the bhazan hall. Interdisciplinary research with Sanskrit and other disciplines is being encouraged. So far more than 15 Ph.Ds were produced which are interdisciplinary in nature with Sanskrit and Management, Sanskrit and Education, Seminars in the department of Sanskrit are being encouraged. Open elective courses on Vedic Mathematics are introduced for engineering students. We collect affordable fees from the students even though ours is a selffinance institution. No capitation fee is collected in any form. We have been serving the students coming from all over India and very few students from abroad. We have more than 5000 manuscripts and palm leave scripts are available in our library is a rare collection and is our cultural heritage.

### **8.Future Plans of Actions for Next Academic Year**

Quality is always in the process of making. innovative practices are to be introduced and best practices are to be continued to promote and sustain quality in SCSVMV. In the next year it is planned to reorganize our web site to create sustainable brand image to the institution. A step towards machine management system from the present document management system is to be initiated. faculty has to liberate themselves from the routine manual work and has to dedicate more time in research and publications. A plan to construct a new building for hostels. a well furnished gymnasium and an auditorium. In the previous years, students satisfactory survey and faculty satisfaction survey was conducted and reports were made based on the responses. This year alumni survey is planned to conduct and make use of the suggestions given by them in various aspects.
