b) Counselling

Viswa Mahavidyalaya has established an interactive and target-oriented counselling programme involving students, faculty and parents to address common student concerns such as anxiety, stress, fear of change and failure, homesickness and other academic concerns. The purpose of this programme is to mentor and monitor the academic and behavioral patterns of the students through faculty mentorship. Accordingly, each faculty member is allotted 10-15 students. Mentor-Mentee meeting is conducted minimum 2 times in a semester and the discussions are documented. The mentor is expected not only to interact with the students but they are also expected to be in touch with the parents and discuss about the academic progress/status of the respective wards. In case of slow learners and differently-abled students close monitoring is made by the mentor in consultation with the respective subject faculty.
