

SCSVMV – GREEN CELL

One pond equals ten wells

One lake equals ten ponds

One son equals ten lakes

One tree equals ten sons

MatsyaPurana

Vision:

- ✓ To establish traditional nandhavanam type flower garden that can supply the flowers and leaves for daily rituals in campus andMutt.
- ✓ To establish a garden with common and rare herbs that can be useful for the University family.
- ✓ To establish a composting yard for transforming the organic wastes in to compost that can be used for the Universitygardens.
- ✓ To make the Mahavidyalaya Campus greener and aesthetically elevatingone.

Mission:

To make the Mahavidyalaya a Green campus, through the collective efforts of the academic fraternity by sensitizing them towards greener practices.

Activities done:

- ❖ The SCSVMV Green Cell takes the pleasure of establishing a flower and herbal garden with a prudent vision and enthusiasm. Since the work may take some time for getting the output, the cell wants to make through smaller and subtle steps in this endeavor.
- ❖ Establishment of Herbal and Flower garden besides the playground.

- ❖ As a marked divine service, With the benign blessings of sri sri periaava, and guidance from EC, SCSVMV green cell is started offering flowers for chandramouleeshvarar pooja @ Orikkai from 14-02-2022 to 14-03-2022.

- ❖ The service is continuing to mutt from 14-03-2022. For every new month a list will be prepared with interested SCSVMV members in advance(25th of last month) and sent to EC for approval.

- ❖ After every month, a completed report will be sent to EC.
- ❖ The fourth Vaarshika Aradhana of Brahmibutha Sri Jayendra Saraswathi Sankaracharya Swamigal was performed on 15th March 2022 at the holy

precincts of His Brindavanam at Srimatam in nagareshu Kanchi with the guidance and presence of HH Pujyashri Sankara Vijayendra Saraswati Shankaracharya Swamigal. With the direction of the Empowered Committee, a team of 45 staff members, from various departments, both teaching and non-teaching, assembled at Kumarakottam Sri Subramaniya Swamy temple at 6.45am and progressed as a form of a procession to Srimatam, with offerings as a sign of veneration led by the Registrar – Prof. Dr. G. Srinivasu, Prof. V. Swaminathan – Head, ECE and participated in the Aradhana at the premises of Srimatam. His Holliness witnessed and blessed us. The offerings were arranged by the Purchase and Admin departments, the entire programme was coordinated by the Green Cell of our Mahavidyalaya.

- ❖ Used Vetiver from campus and prepared malai and it was offered to periava at sri mutt on 22-03-2022.

- ❖ Green cell members Mr.V.Santhanam, Mrs.C.Jeyalakshmi, Dr.Nagarajan, Dr.Vijayashankar, Mr.Arumainathan and Dr.B.Muthukaran visited Jayanthi Nursery, Koovam village, Tiruvallur on 29-04-2022 and received 39 saplings as a compliment from Mr.Kumaresan, the proprietor.

- ❖ On 26-04-22 the pesticides were given to the plants
- ❖ Daily care for the plants is taking place.
- ❖ Inhouse bamboo pandhal for plants were made.
- ❖ Green Cell and the Department of Chemistry celebrated World Environment Day together on 09.06.2022. In order to make our earth greener and adapt people to a green lifestyle, we are promoting this program to create awareness among the people. Mr.V.Santhanam, Asst.Prof.& Head, Dept. of Chemistry welcomed the gathering and briefed about the theme and

importance of the seminar. The inaugural function was presided over by Prof.Dr.S.V.Raghavan, Vice Chancellor, SCSVMV. In his presidential address, he explained the importance of the mother earth and the healthy environment in connection with Vedas. Mr. G. Mohandas, Dy Agricultural Officer-Retd Member-Suddha Sanmarga Sangam, and Swami Jnanamayanandaji, Sri Ramakrishna Mutt, felicitated the gathering. For the intent of feeding birds on the campus, Grain Bank was introduced during that celebration. Mrs. C.Jeyalakshmi, Asst.Prof of Chemistry & Chairman of Green Cell proposed vote of thanks. The program ended with a plantation of saplings on the campus.

sarit-
samudrāmś
ca hareḥ
śarīraṁ
yat kiṁ ca bhūtaṁ praṇamed ananyaḥ

Bhāgavata Purāṇa –
11.2.41

A devotee should not see anything as being separate from the Supreme Personality of Godhead, Kṛṣṇa. Ether, fire, air, water, earth, the sun and other luminaries, all living beings, the directions, trees and other plants, the rivers and oceans — whatever a devotee experiences he should consider to be an expansion of Kṛṣṇa. Thus, seeing everything that exists within creation as the body of the Supreme Lord, Hari, the devotee should offer his sincere respects to the entire expansion of the Lord's body.

Our tradition has always envisaged the need of harmonious living with nature, causing a bare minimum impact on it. We have always seen the all the entities as manifestations of a single supreme power, Saguna Brahman. In the

path of attaining the ultimate knowledge of “All being One”, the mind is first prepared to see all the living beings as equal and all the living beings are considered as a member of an extended world family “Vasudhaiva Kutumbakam”. In the process of spreading the righteous path, Our Mahavidyalaya has established a team “Vasudhaiva Kutumbakam”. The team will be spearheading the propagation of a life style in which the members will always be ready to help anyone without any acquittance. The team will be advocating, practicing and assisting the family members to the dharmic lifestyle. To inculcate this idea in the Mahavidhyalaya family. The SCSVMV Green Cell takes the pleasure of establishing a flower and herbal garden with a prudent vision and enthusiasm. As part of the introduction of the garden, the soils were tested and the soil fertility was improved by adding cowdung manure from Vedal Ghoshala. As a marked divine service, With the benign blessings of sri sri periava, and SCSVMV green cell is started offering flowers of our own garden for chandramouleeshvarar pooja @ Orikkai and continuing the service to mutt now. The green cell started to offer food and water to the birds in our campus. Since birds are ecologically and economically important organisms, our sastras have acknowledged the usefulness of birds in different aspects. They form an integral part of food chains / webs in all the ecosystems. They control the insect/rodent population, are important pollinators for specific types of plants. Aesthetically and socially also they are having a high reputation. As Mahakavi Subramanya Bharathi said that “**காக்கை குருவி எங்கள் ஜாதி**” i.e. the crows and sparrows are our people. The Green cell & VK team thought that we can make this “Budha Yagya” a more participative, a Grain Bank is being launched, in which all can put the grains to be offered to the birds. The desire to help wildlife has positive long-term effects on the environment. Welcoming birds into your yard can make huge strides when it comes to animal conservation. The largest cause of bird decline is habitat loss. Our Mahavidhyalya is having more than 23 species of trees which number approximately to 550 trees, where the birds stay and nestle. Providing food and water to them will attract more bird population, which makes the campus more pleasant and beautiful. All these things can

inspire a change and help influence long-lasting positive effects for both you and the birds in the neighborhood, and help you connect with others in the hobby. The intimacy of being in nature and having a careful and protective connection with the birds can make all the difference in your day. The World Environment Day 2022 theme “only one earth” echoes with the Vasudhaiva Kutumbakam principle. To commemorate the World Environment Day, SCSVMV launches the grain bank to feed birds, an initiative that is unique.

- ❖ On 06-07-22 the pesticides were given to the plants
- ❖ Daily care for the plants is taking place.
- ❖ In-house bamboo pandhal entrance is in progress.

Greencell team coordinated with the VK team in performing Tulasipooja on 01-08-2022.

The tulasi Pooja was arranged in the herbal garden area adjacent to play ground. The area was nicely decorated in a traditional way. 100 tulasi saplings from our campus were prepared in a pot and given to the participants.
