NATIONAL SERVICE SCHEME (NSS)

Aims and Objectives

As the third component of education, the NSS is a part of our academic, social, and personal lives. It enables students to actively offer their time and talents to the betterment of their society and country, thereby assisting in the development of their personalities. As a result, the NSS provides the ideal venue for students and youth across the country to become involved in real-life social activities and, as a result, become responsible citizens of India.

Motto of NSS

“NOT ME BUT YOU”

The Motto

This embodies the essence of democratic living and emphasizes the importance of unselfish service, respect for the other's point of view, and consideration for fellow humans. It emphasizes that an individual's well-being is ultimately dependent on the well-being of society as a whole. As a result, the NSS should make it a goal to live up to this philosophy in its daily activities.

The NSS Symbol

The National Service Scheme's symbol, which appears on the cover page, is based on the chariot wheel of Odisha's Konark Sun Temple. The Sun Temple's massive wheels represent the cycle of creation, preservation, and release, as well as the movement of life across time and space. The symbol's design, a simplified version of the sun-chariot wheel, emphasizes movement. The wheel represents life's ever-increasing cycle. It represents both continuity and change, implying the NSS's ongoing commitment to societal development and advancement.

About the NSS

The National Service Scheme (NSS) had its birth on September 24, 1969, during the Gandhi centenary year. The scheme was first launched in 37 universities comprising 40,000 students.

Today the NSS has become the largest Government organization of students in the country comprising members from the +2 level to the college and university levels. The strength of volunteers has now increased to more than 30 lakhs, which makes the NSS one of the largest student forces in the world. The number of students strength increased from 40,000 to over 3.8 million up to the end of March 2018 students in various universities, colleges, and institutions of higher learning have

volunteered to take part in various community service programs. The strength of NSS volunteers makes the NSS one of the largest student forces in the world

The NSS has good relations with different government agencies and non-government organizations in implementing its programs for building up community assets and helping the underprivileged people through education and social services.

The NSS is useful not only for the development of the student's personality but also helps promote the unity and integrity of the nation by bringing together young people from diverse geographical and socio-cultural backgrounds. The National Service Scheme (NSS) started functioning at Jadavpur university in 1969 and the performance of this scheme is highly satisfactory.

The objective of the NSS is the "development of the personality of students through community service."
