Special School Visit (09.12.2025)

The School of Education of SCSVMV organized a visit to Aadhuraa Special School, Orikkai on 9th December 2025. The objective of the visit was to provide B.Ed students with a firsthand experience of a special school environment, enabling them to understand the needs and requirements of children with special needs. The visit provide an invaluable opportunity to bridge the gap between educational theory and real-world practice by observing specialized pedagogical techniques and the implementation of Individualized Education Programs (IEPs). By interacting with diverse learners and exploring assistive technologies, our students gained a deeper understanding of inclusive education and the importance of adaptive teaching strategies. Most importantly, the experience fostered a heightened sense of empathy, patience, and professional sensitivity, equipping these future educators with the practical insights needed to identify and support students with special needs in any classroom setting. The visit was a valuable learning experience for our students, providing them with a deeper understanding of special education and its applications.
